Taken together, the two projects will provide clean electricity to over one million homes, making this the largest initiative of its kind in Yemen's clean power sector.

In a significant move to improve the lives of displaced families in Yemen, Qatar Charity has launched a transformative project to install solar power systems in homes, ...

UAE-based Global South Utilities, an energy and water infrastructure company, is boosting its solar power generation capacity in Yemen to provide electricity to thousands of ...

More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals. "For many in ...

In this project, an 8kW hybrid inverter is paired with a high-performance 15.36kWh lithium energy storage battery to form a complete home energy solution. This setup provides ...

With the start of the Yemeni civil war, solar panels found their way into the country fast. On March 23, 2015, Sanaa experienced a major power outage. The Marib Power Plant, which supplies Yemeni cities with energy, went out of service. Consequently, the generator business flourished for awhile. However, due to the unstable conditions in Yemen, generators were not guaranteed to remain functional at all times because of increasing fuel prices and occasional lack of fuel. Yem...
