What is South Korea's offshore wind power bidding plan?

The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025. In addition to offshore wind, the Asian nation will offer for tender up to 1 GW of solar photovoltaic (PV) capacity.

How many offshore wind projects has South Korea awarded in 2025?

South Korea has awarded 689 MW of offshore wind projects in the competitive tender for fixed-bottom offshore wind organised in the first half of 2025, the Ministry of Trade, Industry and Energy (MOTIE) and the Korea Energy Agency (KEA) said on 1 September.

How much will South Korea's offshore wind power auction cost?

The ceiling price has been set at KRW 176,565 (USD 128.6/EUR 113.3) per MWh, the same as in last year's auction. The capacity of the proposed bidding round is in line with South Korea's Offshore Wind Power Competitive Bidding Roadmap, unveiled in August 2024, and its Public-led Offshore Wind Bidding Plan released in March 2025.

How will South Korea's offshore wind sector grow?

In light of these developments, South Korea's offshore wind sector is poised for exciting growth, fuelled by a strong commitment to renewable energy. The government is enhancing regulatory frameworks to streamline project approvals and attract investment, aiming to significantly increase offshore wind capacity by 2030.

The government has announced competitive bidding for wind power plants with a capacity of 1.25GW and solar power plants with a capacity of 1GW in the first half of this year.

The South Korean government on Monday unveiled details for tenders scheduled for the first half of this year that will target 1.25 GW of offshore wind and 1 GW of solar power ...

The Ministry of Trade, Industry and Energy plans to continue to advance the system by comprehensively considering achieving challenging new and renewable energy ...

In August 2024, South Korea's Ministry of Trade, Industry, and Energy (MOTIE) unveiled a comprehensive roadmap aimed at achieving 18.3GW of onshore & offshore wind ...
