At Natron Energy, we're changing the way the world looks at critical power and industrial batteries for high-powered applications like AI, data centers, peak shaving, and power quality ...

In this perspective, we first provide an overview of characteristics of sodium ion batteries compared to lithium ion batteries.

The distribution of sodium battery projects in 2024 includes energy storage demonstration projects, industrial park projects, sodium battery material projects, and sodium ...

This flagship manufacturing facility will dramatically accelerate our efforts to deliver sodium-ion batteries to customers who are hungry for ...

The North Carolina plant would be significantly larger than its existing Michigan factory, producing 24 gigawatts of sodium-ion batteries annually compared to 600 megawatts.

Natron Energy's new factory in North Carolina represents a significant investment in Sodium-ion Battery technology. The company ...
