---

Supercapacitors have a positive and negative electrode, with an aluminum collector and separator inside an aluminum can. In addition, supercapacitors have an ...

A supercapacitor (SC), also called an ultracapacitor, is a high-capacity capacitor, with a capacitance value much higher than solid-state capacitors but with lower voltage limits. It ...

Targray supplies Aluminum foil designed specifically to act as a supercapacitor in lithium-ion batteries. In Supercapacitor applications, Aluminum foil acts as a current collector for ...

Supercapacitors are comprised of a capacitor, such as an aluminum electrolytic capacitor or ceramic capacitor, and features that supplement ...

Supercapacitors are comprised of a capacitor, such as an aluminum electrolytic capacitor or ceramic capacitor, and features that supplement the characteristics of a lithium-ion battery or ...

SuperCapacitors are a valuable technology for providing a unique combination of characteristics, particularly very high pulse power and capacitance densities.
