Skeleton Technologies is the world's leading manufacturer of graphene-based supercapacitors. Rebuilding industry for a net-zero future.

Our portfolio includes supercapacitors with a capacitance value of up to 4000 μF . We also offer cells with a very low internal resistance (ESR) of up to 1.7 V, resulting in minimal power loss ...

Curved Graphene greatly enhances the energy density of our supercapacitors and SuperBattery, addressing the stability and scalability challenges of solid-state battery technologies. Our ...

SkelGrid is an energy storage system that can be used for short-term backup power or to increase power quality for industrial applications or infrastructure. As a modular system, SkelGrid ...

The leading Supercapacitor Manufacturers in Germany are listed in this directory. You can narrow down the list of manufacturers based on their location and capabilities, browse their product ...

Skeleton Technologies is the largest supercapacitor factory in Europe. Discover the reasons why Skeleton Technologies should be your company's next high-power energy storage partner.
