---

In Swaziland, where solar energy adoption is rising rapidly, 12V batteries have become a cornerstone for off-grid and hybrid systems. These compact yet powerful units store solar ...

Next-generation solar folding containers have increased efficiency from 75% to over 95% in the past decade, while battery storage costs have decreased by 80% since 2010.

Frazer Solar, an Australian-German company, has signed a definitive deal with the Government of Eswatini (Swaziland) for a 100MW solar battery project, which will be Africa's largest.

Lithium battery solar street light Lithium batteries offer 3-5 times the energy density of lead-acid batteries. This means more energy storage in a smaller, lighter package--perfect for ...

In a landmark decision, Swaziland has greenlit a major energy storage initiative aimed at addressing grid instability and accelerating renewable energy adoption.

Can solar power help Eswatini achieve its electrification goals? Although Eswatini's electrification rates are relatively high, they are still a long way off 100% (the country's target for 2022).
