---

The 160 000 km<sup>2</sup> exclusive economic zone around São Tomé and Príncipe is an untapped solar heat battery, which OTEC platforms could harness to supply carbon-free, baseload power.

Sao Tome is an ideal location for solar energy, Offgridinstaller can supply and fit any size of solar system with high quality lithium ion battery storage which can generate and power year round

This project marks a decisive step in São Tomé and Príncipe's gradual shift from fossil-based, polluting energy sources to renewable and sustainable alternatives.

Explore the benefits and technology behind containerized off-grid solar storage systems. Learn how these scalable, cost-efficient solutions provide reliable power and energy ...

Our dedicated engineer, Sergio, embarked on an exciting journey to commission JGH's second solar project in the picturesque ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...
