When will energy storage projects be regulated?

The storage industry anticipates this to be passed into law in 2022, and that it will apply to projects that achieved commercial operation after December 31, 2020, reducing the risks and uncertainty in energy storage project economics.

Can energy storage solutions deliver more reliable electricity to New York communities?

NYSERDA President and CEO Doreen M. Harris said, "The possibilities created by innovative energy storage solutions can safely deliver more reliable electricity to New York communities as part of building an affordable and resilient zero-emission future."

How has energy storage changed over the past decade?

Deployment of energy storage across the U.S. has increased significantly in the past decade, mostly driven by individual state and local government policies to support acceleration of renewable energy resources for a more robust, reliable, and resilient grid.

Why is energy storage important?

By storing excess energy during demand lulls and discharging it as electricity during demand peaks, energy storage may cost-effectively lower consumers' utility bills, relieve stress on the grid, lower carbon emissions, and provide resilient power. There are many forms of energy storage, each with its own costs, challenges, and benefits.

On February 5th, 2025, at WSP USA in New York City, 80 public and private leaders convened for The Carbon League (TCL)'s Urban Energy Storage ...

As LL97 drives up demand for building-integrated energy storage, and Zoning for Carbon Neutral allows more as-of-right systems, the time is ripe for NYC to unlock energy ...

As cities nationwide grapple with aging infrastructure and climate commitments, urban energy storage is likely to expand beyond New York City.

A Brooklyn-based community-scale energy storage developer has secured sufficient funding to purchase almost 100 MW/400 MWh of battery energy storage systems ...

A Brooklyn-based community-scale energy storage developer has secured sufficient funding to purchase

almost 100 MW/400 MWh of ...

Governor Hochul announced that New York State will receive U.S. Department of Energy (DOE) funding for a long-duration energy storage demonstration project that will use ...
