How will the Vatican's new energy system work?

According to the Vatican's press office, the installation will apply the most advanced solutions currently available, balancing clean energy generation with the preservation of agricultural use, the region's hydrogeological stability, and the protection of its cultural and archaeological heritage (ZENIT News / Rome, 08.01.2025).-

Will the Vatican transition to solar energy in 2024?

Nearly one year has passed since Pope Francis revealed his plan for the Vatican state to transition to solar energy as its main power source, as outlined in the 2024 motu proprio Fratello Sole, or "Brother Sun."

Will Pope Francis install a solar plant?

Pope Francis. File Photo Pope Francis has ordered the Vatican to install a solar plant that will provide electricity to the entire city state, as the pontiff does his bit to tackle climate change.

Where is Vatican Radio located?

The site of the future installation is no ordinary patch of land. Since 1957, it has hosted Vatican Radio's shortwave transmission center, on extraterritorial land granted to the Holy See under agreements with the Italian government.

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

Pope Francis has ordered the Vatican to install a solar plant that will provide electricity to the entire city state, as the pontiff does his bit to tackle climate change.
