Can I use a base station on a Wyze Cam Outdoor?

Wyze Base Station requires an ethernet connection on the router during setup. After setup, you can connect to the base station via Wi-Fi in the Wyze app and unplug the ethernet cable. Then, place the base station anywhere you want as long as it has a Wi-Fi signal. No, not on either Wyze Cam Outdoor.

How do I connect a Wyze camera to a base station?

Connect your mobile phone to the network. Connect the base station. Connect to power and router (require Ethernet port). The light remain solid blue once it's connected. Add Wyze Cam outdoor. Power on the camera. Synchronise camera with base station. You will hear, "Pairing is in progress."

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.
